SIMPLE WAYS GRATITUDE CAN LIGHTEN HOLIDAY STRESS

November is a month full of meaning. It is **Gratitude Month**, and it also includes **Stress Awareness Day** on November 5. Both remind us that while stress is a natural part of life, gratitude can help us feel calmer, healthier, and more connected.

Gratitude does not need to be complicated. Sometimes it is the little things that matter most. A warm meal shared with family, a kind word from a friend, or a neighbor lending a helping hand can ease stress and brighten your day.

Here are a few uplifting ways to practice gratitude this season:

Unplug and Notice: Step away from the news or your devices for a while. Enjoy the crisp air and colors of fall with a walk outside, or spend a cozy afternoon with family or friends over a cup of coffee or tea.

Share Your Thanks: Let family, friends, or neighbors know you appreciate them. A smile, a short note, or a thoughtful word can mean more than you realize.

Create Moments Together: Gratitude grows in connection. Enjoy a meal around the table, play a game with grandchildren, or simply sit and talk with someone you love.

Simply Pause: Take a few deep breaths and think of one thing you are grateful for today. It could be the

comfort of your surroundings, the laughter of friends, or the support of family.

Celebrate the Everyday: Holidays are special, but gratitude also lives in daily joys. Cherish the simple moments that brighten life, like the vibrancy of fall leaves, a phone call from a neighbor, or a hug from a loved one.

As families, friends, and communities gather this November, remember that gratitude is more than a holiday tradition. It is a way to ease stress, strengthen our connections, and celebrate the joy of reaching out and appreciating one another. Wishing you a season filled with thankfulness, togetherness, and a very **Happy Thanksgiving.**

ALZHEIMER'S DISEASE AWARENESS MONTH: IS IT AGING OR ALZHEIMER'S?

It can be challenging to determine whether forgetfulness is due to normal aging or early signs of Alzheimer's. If you or a loved one notice any of the following signs, it's essential to schedule an appointment with a memory care specialist or a primary care physician:

- Frequent memory loss of new information
- Trouble with communication, using odd descriptions for simple words
- Difficulty completing everyday tasks
- Ignoring activities of daily living
- Misplacing items in strange places (i.e., ice cream in the oven)
- Getting lost in familiar areas
- Impaired judgment (i.e., wearing inappropriate clothing for the weather)
- Unexplained mood swings or personality changes
- Loss of initiative or disengagement from activities
